NO.55019

Windmills

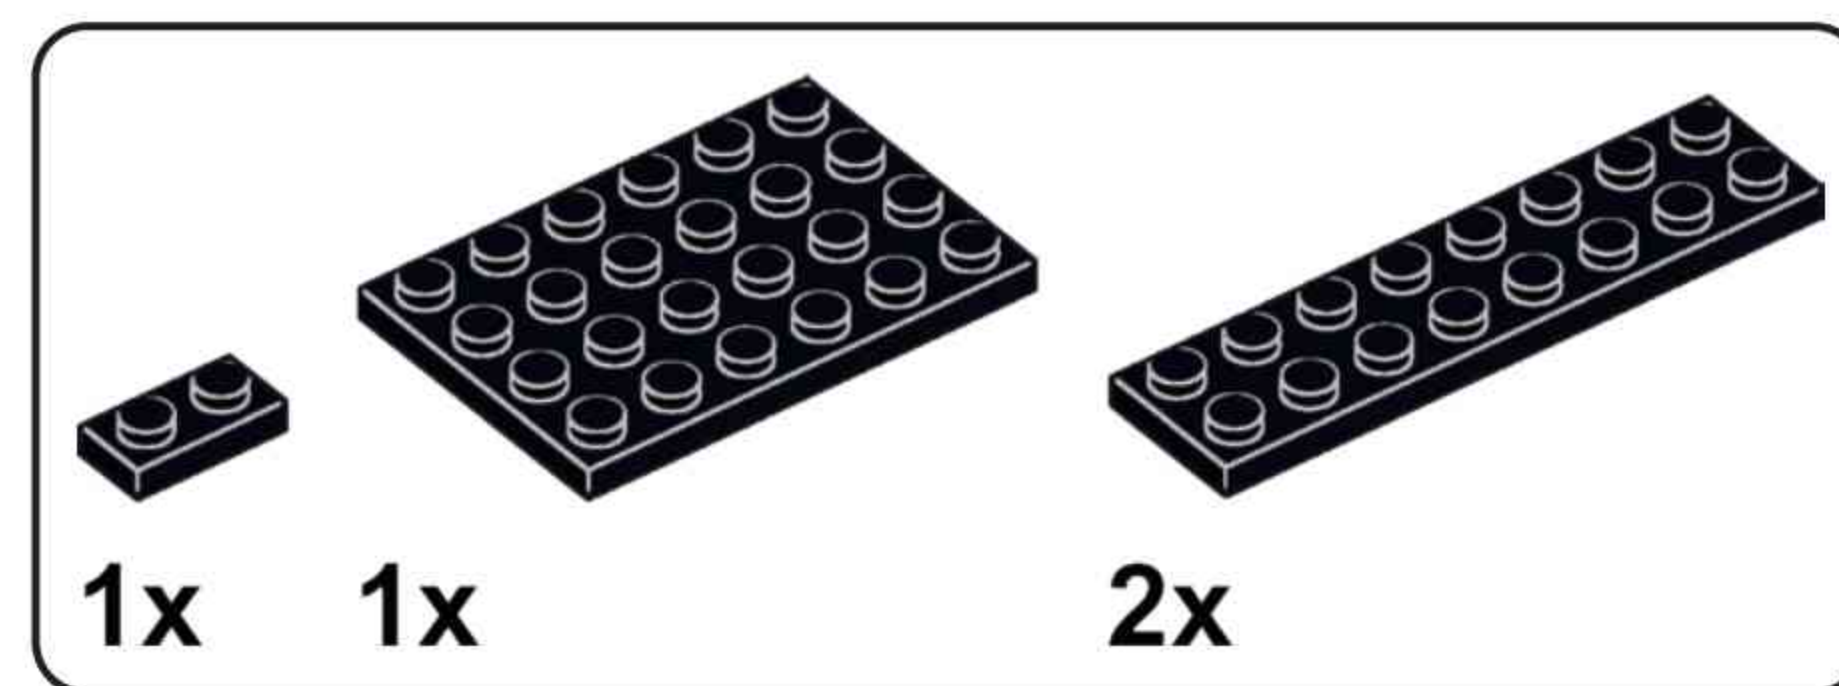

The Iconic Landscape Of The Netherlands

In 1752, Mayor Jan Ter Horst of Rijssen built this oil and peeling mill next to the river Regge.

The mill pressed oil from linseed. Linseed comes from the flax plant.

A second mechanism was used to hull barley, which produces pearl barley.

Linseed, barley, and the final products were transported by land and over the river Regge.

The Pelmolen was one of the three industrial mills in Twente.

Oil-rich crops came from all over the eastern part of the Netherlands.

Due to the Industrial Revolution,

the mill fell out of use in 1913 and became heavily deteriorated.

Just in time, the mill was preserved as a historical monument.

In 1975, the mill was fully restored and opened to the public as a fully working mill.

Linseed, linseed cakes, and linseed oil are still for sale,

as well as flour products from other nearby mills.
